**April is Month of the Military Child**

I wanted to take a moment to make you aware of an important time quickly approaching this academic year. April is designated at Month of the Military Child. It is during this month we work to recognize military youth across the state, and around the world, for the sacrifices they make each day having a loved one serving in the military.

With nearly 11,000 military dependents throughout the state, representing all of the Armed Services, we invite you to help us honor these young heroes. Attached to this email are some resources you might find helpful as you work to celebrate April's Month of the Military Child. I ask that you please disseminate this information throughout your building/district and/or community network.

Additionally, I have included information on one dynamic professional development trainings we are offering in April. These trainings are provided at no cost to the attendee. Those completing the trainings can elect to take them for graduate credit, a CEU or for teacher licensure renewal credit through Heartland AEA 11 (applicable fees required for credit).

### **Outward Bound Program for Veterans**

Outward Bound for Veterans provides our returning service men and women with rewarding wilderness expeditions specially designed for the men and women or our nation's armed forces. Veterans programs are designed to be exhilarating, challenging, and rewarding. We make the most of the organizational and teamwork skills which veterans have learned in the military to move groups of 10-12 participants straight into the field.

Once on expedition, Outward Bound training will bring veterans up to speed on our wilderness travel expectations. Leadership skills will be tested as participants take responsibility for the crew and make community plans and decisions. Our staff, most veterans themselves, have extensive experience in backpacking, mountaineering, climbing, canoeing, sailing, kayaking, whitewater rafting, and dog sledding. Participants rely on them for information and safety, but ultimately the success of the experience rests with the participants.

All programs, including travel to and from the course areas from anywhere in the continental US, are fully funded through the generous support of a network of partners, sponsors and donors. Participating veterans only need to provide day-to-day clothing and footwear.

Outward Bound for Veterans programs...

- \* build a supportive community with other war veterans;
- \* facilitate genuine discussions on readjustment and transition challenges;
- \* re-energize and reinvigorate spirits through adventures and challenges in a beautiful natural environment;
- \* reduce the feeling of isolation;
- \* provide the opportunity to bond with comrades outside of the typical military structure;
- \* transfer veterans' military values and experiences to civilian life so that Veterans are prepared to serve their stateside communities.

The slots fill up fast, so veterans who want to go on an expedition should sign up early, and probably try for more than one.

### **Military Kids Connect**

MilitaryKidsConnect (MKC) is an online community of military children (ages 6-17 yr old) that provides access to age-appropriate resources to support children from pre-deployment, through a parent's or caregiver's return. MKC offers informative activities, fun games, helpful videos, and interesting user surveys that can guild and reinforce understanding, resilience, and coping skills in military children and their peers.

Today's military kids grow up in a world where they may experience multiple deployments of important family members. They need a unique set of skills to draw on in order to get through long and often difficult separations and situations. MKC helps children prepare for the challenges faced during these significant family transitions. Through participation in MKC's monitored online forums, children can share their own ideas, experiences, and suggestions with other military children, helping them to know they are not alone in dealing with the stresses of deployment. MKC's focused parent and educator tracks provide information to help them understand what it takes to support military children in at-home and school settings.

Safety is the number one priority for MKC. To keep your child safe on MKC, we include a way for parents to control and monitor their child's access and activity on the website. Parents can navigate the website in advance in order to understand the kinds of content their child(ren) will see and use. Every effort has been made to

prevent undesirable persons from using MKC to interact with children.
